

SPRINGFIELD UTILITY BOARD
TRUCK SERVICE BODY WITH CRANE
BID NO. 2010-01

ADDENDUM NO.1

The following considerations and work item(s) will be included with the price quote for subject project.

Addendum No. 1

Clarifications for:

- B 2 4" X 12" vents stamped in the body on the inside of the work bins. No door vents.
- B 3 Measurements are the actual ladder size for a 10 foot ladder. Ladder compartment will be 11 feet long and as wide as the bin or the pipe rack and basket.
- B 4 See photo for an example of the cab guard idea.
- B 5 Strobe lights are to be mounted on the cab guard light brackets.
- B 6 Lights are mounted to the top portion of the rear panel. See photo.
- B 8 SUB described the hitch, see photo for example.
- B 9 There is not a gap between the rear panel and the 24 inch work deck.
- B 28 LineX the entire front area of the body including the tool holders.
- B 39 See photo for side gate example.
- B 40 Fuel reel mounting may be mounted with the diesel tank as it may not fit in the side compartment. SUB personnel will determine proper location before pre paint. See Additional Specifications below.
- B 41 1st sentence should read: 58" X 24" rear right side. Vented inside of the body with a roll-out shelf.
- B 43 See photo for light mounting example.

Optional Equipment #2 This system will operate a hydraulic air compressor, saws, compactors, pumps, the compactor lift, and valve operators with 9 to 14 gpm. range. Hydraulic hoses are ½ inch and married/welded together. All reels are spring retractable.

Optional Equipment #3 Spelling for predator is: Predatair.

Additional Specifications:

Add a fuel hose and reel. It will be installed in the right hand middle compartment. The fuel hose will be a 3/4 inch x 25 feet long. It will be installed on a retractable hose reel, with an inline electronic meter, and a automatic shut-off nozzle.

Add an electric brake controller installed in the cab on the driver side of the dash.

B 34 Add stainless steel grab bar at the rear panel right hand side.

Other Clarifications:

B 9 Remove the hydraulic lifter description from B9 and add it as an additional item under Optional Equipment.

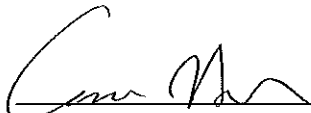

The holder tray for jumping jack will be electric over hydraulic actuated lift and lower.

B 36 Remove fuel tank sentence from B36 and add it to #2 in the Optional Equipment

B 36 Change 58 inches to 32 inches. See information items on our web site at subutil.com.

Fuel tank to be configured with the hydraulic tank, both to be no more than 32" so not to interfere with the pass-through opening.
