

SPRINGFIELD UTILITY BOARD

MAIN OFFICE 250 A Street, PO Box 300 Springfield, OR 97477-0077 Tel 541.746.8451 Fax 541.746.0230 TDD 541.744.3659 [www.subutil.com](http://www.subutil.com)

## **Dear Springfield Utility Board Customer:**

Thank you for your interest in Net Metering. Enclosed are 2 documents that are necessary for applying for a Net Metering installation.

1. Net Metering Application
2. Interconnection Standards for Customer-Owned, Grid-Connected Electric Generating Systems of 250 kW or less

Net Metering is available to customers who are interested in generating their own electricity and want to be connected to Springfield Utility Board's (SUB) electrical system. Net Metering only applies to the following generating systems of 250 kilowatts (kW) output or less that use one of the following technologies:

1. Solar systems
2. Wind systems
3. Small hydro systems
4. Landfill Gas systems
5. Biomass systems
6. Anaerobic Digestion systems
7. Fuel cells

## **Springfield Utility Board Contacts**

For questions regarding interconnection and installation please work with SUB's Substation Metering Engineer, Nick Amann (541) 744 -3711. For questions regarding the contract or SUB's net metering policy, please contact SUB's Power Resource Manager, Jeff Nelson (541) 744-3779.

## **Local Permitting Agency**

Apply for appropriate electrical permits from the City of Springfield. Local permit requirements may be different (and are in addition to) SUB requirements.

## **Qualified Systems**

Customers may choose to purchase a qualifying system from a contractor of their choice.
